PowerG Wireless Dual Technology (PIR & MW) Motion Detector

PG9984P

SKU: 19705 UPC: 88030289

Fully secure businesses of all sizes with the PowerG Dual Technology Motion Detector that combines advanced PIR detection algorithms with K-band microwave detection to dramatically reduce false alarm events even in harsh installations. The detector sends an alarm signal after both the PIR and the microwave sensors have detected an intruder, significantly reducing false alarms. Uniquely designed to continuously adjust its sensitivity according to the location temperature, the dual technology motion detector is able to detect an intruder even when the ambient temperature is close to that one of the human body.

Features

- Dual PIR and K-band microwave technologies dramatically reduce false alarms and decrease associated operational costs
- Market-leading mirror optics offer exceptionally high detection sensitivity and immunity to false alarms
- Coverage area – 49 ft. / 90°
- Ideal for commercial and harsh residential installations
- Pet-immune – Target Specific Imaging™ distinguishes between humans and pets weighing up to 88 lbs.
- Vandal-resistant design through patented V-Slot technology
- Anti-disguise mode detects intruders even in extreme temperature conditions
- Front and Back tamper
- Anti-masking technology
- Low battery indication
- Compatible with PowerSeries Neo, PowerSeries Pro and Qolsys panels
