SKU: 145476 UPC: 769103501103

Reduce Noise Through Floors

DynaPad is an effective four-part composite sound barrier that dramatically reduces sound transmission through floors. DynaPad can be used on any floor above or below a noise source. DynaPad works to prevent unwanted noise transfer outside the room while creating an optimal acoustic environment in the room.

DynaPad is optimized for home theater use, but is perfect for other areas where silence is needed. Easy to install, DynaPad can be used in place of, or in addition to existing carpet pad. DynaPad makes any room quieter and is also ideal for the home office, nursery, exercise room, study, laundry room, and bedroom. Use DynaPad throughout your home for Better Sound and Quieter Living.

DynaPad 112.5 sq. ft. (10.4 sq.m.) 3/8" thick x 54" x 25' roll (9.5mm thick x 1.37m x 7.62m roll)
