

8-Channel 8MP TurboHD 4K Analog DVR

DS-7208HTI-K2

SKU: 17375 UPC: 842571116359

Hikvision DS-7208HTI-K2 8-Channel 8MP TurboHD 4K Analog DVR allows you to stream and record up to eight video channels at resolutions up to 8 MP. Equipped with two SATA ports, each supporting an HDD of up to 8TB, this DVR can accommodate up to 16TB of internal storage (HDDs available separately). The recorder supports HD-TVI, AHD, HD-CVI, and SD analog cameras via its BNC interface. Additionally, it has a four-channel IP video input for IP cameras up to 8MP. With the help of H.265+, H.265, H.264+, and H.264 compression, file sizes are kept manageable while recording and playback quality is maintained.

The DVR's interface includes RCA ports for two-way audio communication, as well as BNC, HDMI, and VGA connections for video output with support for dual streaming to maximize bandwidth efficiency. The HDMI connection can output up to 4K UHD resolution video.

Features:

- VGA output at up to 1920 x 1080 resolution
- HDMI output at up to 4K UHD resolution (3840 x 2160)
- H.265+, H.265, H.264+, and H.264 main stream encoding
- Self-adaptive HD-TVI/CVBS signal input
- Full-channel recording at up to 8MP
- Supports long-distance transmission over UTP and coaxial cable to a maximum of 3937' at 720p and 2625' at 1080p
- Eight-channel synchronous playback
- Supports IP cameras up to 8MP
- Dual stream support
- Supported analytics include line crossing, intrusion, scene change detection, people counting, heat map functionality, and Video Quality Diagnostics (VQD)
- 1 x USB 3.0 and 1 x USB 2.0 ports
- RS-485 half-duplex serial interface
- Eight alarm inputs and four alarm outputs
- CSA, FCC, CE, and cUL certified
