

ILLUMIVUE™ BY MSTR

Western Digital 2TB Hard Drive

WD20PURZ

SKU: 160756

WD PurpleT drives are engineered specifically for surveillance to help withstand the elevated heat fluctuations and equipment vibrations within NVR environments. An average desktop drive is built to run for only short intervals, not the harsh 24/7 always-on environment of a high-definition surveillance system. With WD Purple, you get reliable, surveillance-class storage that's tested for compatibility in a wide range of security systems.

With a 2TB capacity, the Illumivue WD20PURZ provides generous storage space for your video recordings. Whether you're monitoring a small home or a large commercial property, this hard drive ensures that you have ample room to store hours of high-definition footage. Say goodbye to constantly deleting old recordings to make space for new ones and enjoy the convenience of extended storage.

Compatible with

- NVR16
- NVR8
- NVR4
- DVR8
- DVR4
