

SONOS

Port Versatile Streaming Component

PORT1US1BLK

SKU: 160001 UPC: 878269008828

Transform any stereo or amplified receiver into a state-of-the-art Sonos system to stream music, podcasts, audiobooks, radio, and more from the top services.

Stream audio to a stereo system with this matte black Sonos Port. The audio line-in lets one connect CD players and record players, while the line-out supports RCA or digital connections for amplified audio equipment. This Sonos Port features easy-to-use controls so the user can adjust volume, bass and treble, and the Ethernet port supports high-speed connections.

Features

- Streams music and more to a connected amplifier or receiver
- Control with the Sonos app or Apple® AirPla® 2 software, and easily expand a sound system to more rooms
- Use any smartphone as a Sonos remote
Download the app on an Android or iOS device to send photos, music and video to the TV.
- High-speed wireless connectivity
Built-in 802.11b/g Wi-Fi connects to the Internet through the wireless home network (wireless router required and sold separately).
- Interfaces
Include audio line-out, SPDIF output, LAN, and audio line-in.
Web-based services and content require high-speed Internet service. Some services may require a subscription.

Upgrade traditional audio equipment

Transform any stereo or amplified receiver into a state-of-the-art Sonos system to stream music, podcasts, audiobooks, radio, and more from top services.

Connect everything

Includes audio line-out, SPDIF output, LAN and audio line-in

Instant music

The 12V trigger automatically turns the amplifier on so one can just press play in the app. No extra remote required.

Control it all with the app
