

## Alarm Range Extender (2nd Gen)

B07ZB2VP4K

SKU: 31933    UPC: 842861111040

The Ring Alarm Keypad is an indoor control panel that lets you easily arm and disarm your Ring Alarm system from inside the home. Choose "Away to activate your entire system before walking out the door, "Disarm to deactivate your sensors or "Home to activate select sensors for flexibility. It's easy to setup and only takes a few minutes to install. It plugs into any standard power outlet and comes with a rechargeable internal battery for a wire-free solution.

### Features:

- Requires the Ring Alarm Base Station
- Easily arms and disarms your Ring Alarm system
- Choose from "Home, "Away and "Disarmed security modes
- 30-second grace periods
- Simple setup with no tools required
- Plugs into standard power outlets
- Includes an internal rechargeable battery
- Mounts to walls, tabletops and countertops

Note: Requires the Ring Alarm Base Station
