

## Dynabox Ceiling Speaker Enclosure

50306

SKU: 145477    UPC: 769103503060

### **Get Better Speaker Sound Quality!**

DynaBox is a unique retrofitable ceiling speaker enclosure that completely encases the speaker, projecting more clear sound into the room and maximizing your speakers output. DynaBox effectively reduces sound migration between rooms, ceilings and floors. With DynaBox, speakers sound incredible without causing annoying noise in other rooms!

Even the very best speaker will send the same sound into the wall structure as it does into the theater. This migrating sound subtracts from your speakers sound quality, and can create annoying noise in adjacent rooms. DynaBox acts as a moisture barrier for your speakers, and will drastically reduce unwanted noise migration into other rooms of the house, as well as dramatically improve the sound of every speaker!

DynaBox is ultra-flexible which enables it to be completely collapsed for installation. This revolutionary design makes the DynaBox extremely easy to retrofit through existing speaker openings or install in new construction.

DynaBox 17.25" x 12.25" x 6.5" 17.25" x 12.25" x 6.5" (43cm x 31cm x 16cm)
