Surge Protected Duplex Power Kit

364569-02-V1

SKU: 7348 UPC: 80442802094

The Surge Protected Outlet Kit protects connected loads from potentially damaging voltage spikes (surges) caused by lightning strikes, or the switching of inductive loads (motor loads), as well as from RFI (radio frequency interference). It cannot provide protection in the rare event of a direct lightning strike. An audible signal will alert you to the failure of the surge protection component.

Feature

- 120VAC, 15A
- Connect with the AC1031 to add six AC power outlets in the enclosure
- Kit includes:
 - Surge protected duplex outlet
 - Metal junction box
 - Faceplate kit
