LTE Universal Wireless Commercial Fire Alarm Communicator

LE4010CF-AT

SKU: 19729 UPC: 80007749

Due to rapidly-evolving cellular technologies, 2G/3G network sunsets are already on the horizon with some having already been completed. Now's the time to adopt and adapt. Switch to LTE today, to offer customers long-lasting investment protection, and reduce your future truck rolls. The LE4010CF connects the alarm control panel to the Cellular network and reports alarm signals directly to a monitoring station receiver (Sur-Gard System I-IP/II/III/IV/5). The LE4010CF uses the Cellular network to ensure low-cost, high-speed and reliable alarm communications and is compatible with control panels that communicate using the Contact ID or SIA (300 baud) format.

Features

- Uses LTE network for highspeed, reliable and low-cost communications to an IP receiver
- Automatically switches to 3G (HSPA/HSPA+) if LTE service is not available
- Compatible with control panels that communicate using Contact ID or SIA (300 baud) formats
- Full event reporting
- 4 on-board inputs with NC, NO or SEOL supervision
- 4 on-board outputs (open collector)
- Activation and initialization via website or mobile interface provided by C24 Communications
- View communicator status directly from your mobile phone to support on-site or remote troubleshooting
- Compatible with Sur-Gard System I-IP/II/III/IV/5 monitoring station receivers
- Includes UL listed power supply, transformer and 7 Ah rechargeable battery
- UL 864 listed
- CSFM listed
