

Encrypted Takeover Module

TAKE1E-345

SKU: 151052 UPC: 81708201340

The Super Switch is 2GIG's wireless takeover module. This unit was designed to convert 8 hardwired zones into eight wireless zones, make installation simple, and work with existing 12-volt control panels. The module is to be mounted next to the existing Control Panel where the hardwired zones are connected. All of the zones on the Super Switch act as supervised wireless zones.

Features

- Converts hardwired loops into as many as 8 wireless zones
- Converts 8 zones per module (additional modules may be added)
- Operates at 9-16 VDC, 50 mA
- Can be powered by and use backup battery of an existing 3rd party Control Panel
- ETL Listed
