In today's IP Video & Ethernet networks twisted pair cables are demanding more speed and bandwidth. To help meet these requirements Cat5e/6/6A cables have increased in size. Both the outer diameter of the cable and the insulation diameter of the conductors are larger and vary by manufacturer making cable and connector compatibility a challenge. The new patented ezEX-RJ45 Termination System is the solution providing greater cable to connector compatibility to meet higher performance demands. The ezEX-RJ45 connectors feature a unique integrated Hi-Lo stagger load bar and allows "big" conductors to pass through the front end of the connector making it easy to verify the wiring sequence before terminating.
