PowerG Wireless 360° Ceiling-mount PIR Detector

PG9862

SKU: 19683 UPC: 88030678

The DSC PG9862 is an white-color, PowerG, wireless 360 degree celing-mount PIR motion detector designed for compatible security systems. The PG9862 is a highly robust motion detector, suited for residential and small to mid-size businesses requiring detection coverage of up to 10m (32.8ft) in diameter.

The detection range and ceiling placement together make the PG9862 detector ideal for small to medium-sized rooms. This motion detector delivers fullroom coverage with a single device. Uniquely designed for discreet and hard-to-reach ceiling placement, the PG9862 detector is visually attractive, and tamper-resistant. Based on built-in PowerG leading-edge wireless technology, this sophisticated detector delivers proven motion detection with superior immunity to false alarms.

Features

- PowerG robust, industry leading commercial grade wireless technology
- Delivers 360 degree motion detection from a ceiling-mounted device
- Fully secures small to mid-sized rooms with detection coverage of up to 10m (32.8ft) in diameter
