## N PowerSeries Neo LTE/Internet Dual-Path Alarm Communicator - AT&T

TL880LECAT N

SKU: 118606    UPC: 82004301603

The TL880LE / TL880LT LTE/ Internet Dual-Path Alarm Communicator ensures reliable primary or back up alarm communication of the phone line for your home or business. When connected to a Tyco HS3032 or HS3128 control panel, alarm reporting paths can be combined through the Public Switched Telephone Network (PSTN), if so desired, plus the LTE cellular network and/or Internet for maximum redundancy.

### Features

- Dual-path (LTE/Internet) for flexibility and redundancy
- Alarm.com interactive services allow Z-Wave sensors, remote arm/disarm and other functions from web portal or smartphone application
- Signal strength and trouble display
- PC-Link connection
- Can be located with alarm panel, or mounted remotely up to 100' away using PCL-422 module
- Compatible with HS2016/HS2032/HS2064/HS2128 V1.1+ PowerSeries Neo control panels (TL880LEAT N/TL880LETL N/TL880LTVZ N models)
- Compatible with HS3032/HS3128/HS3248 V1.01+ PowerSeries Pro control panels (TL880LEAT N/TL880LETL N/TL880LTVZ N models)
- Compatible with Sur-Gard System I-IP/II/III/IV/5 monitoring station receivers
- Compatible with External LTE Antennas: LTE-15ANT, LTE-25ANT, LTE-50ANT
