Wireless Passive IR Motion Detector

WS4904P

SKU: 19697 UPC: 80008816

Among the most technologically advanced detectors available, the WS4904 achieves superior detection and false alarm prevention through digital signal analysis. Digital information is more accurately analyzed using software and is not subject to signal degradation caused by amplification, noise, distortion or signal clipping. The detector's technology adapts to changing environmental conditions by adjusting critical detection parameters to provide improved consistency of detection over all temperature ranges. Pet owners looking to be protected from false alarms can choose the WS4904P model version, a detector that is immune from pets weighing up to 60 lbs (27 kg).

Feature

- WS4904P replaces the WLS904PL-433
- Reliable 433 MHz technology
- WS4904P model version provides pet immunity up to 60 lbs (27 kg)
- Based on the Bravo 3D hardwire motion detector
- High-traffic shutdown
- Temperature compensation
- 1 lithium battery included
