

RACK

2 Space Vented Rack Shelf

2USHELF-V

SKU: 160768 UPC: 819932011448

Introducing the RACK 2USHELF-V 2 Space Vented Rack Shelf, the perfect accessory for adding additional storage space and promoting efficient airflow in your rack setup. Designed with functionality and durability in mind, this vented rack shelf provides a reliable platform for your non-rackmount equipment while enhancing ventilation within your rack.

The 2USHELF-V is a 2U vented rack shelf that seamlessly integrates into your existing rack configuration, creating a versatile storage solution for items that cannot be mounted directly. Its vented design allows for improved airflow, preventing the build-up of heat and ensuring optimal performance of your equipment. The precisely placed perforations on the shelf promote efficient cooling, reducing the risk of overheating and prolonging the lifespan of your valuable gear.
