

RF CCO Module

LMJ-CCO1-24-B

SKU: 124930 UPC: 784276070003

The LMJ-CCO1-24-B is an RF CCO low voltage control module that provides a single dry contact closure output based on input from RadioRA and HomeWorks QS systems.

Features:

- Single contract closure output including both normal open and normally closed dry contacts
- Maintained or momentary output type
- Utilizes Lutron Clear Connect FR Technology
- Screw tabs provided for surface mounting; or mounts to an electrical junction box through a 1/2 in or 21mm trade size knockout
- Complies with requirements for use in a compartment handling environmental air (plenum)
