

## UniFi Cloud Key Gen2 Plus

UCK-G2-PLUS

SKU: 25836    UPC: 817882024532

The UniFi Cloud Key Gen2 Plus from Ubiquiti Networks is an integrated hardware controller and self-contained application server designed to monitor and manage your UniFi network devices and camera surveillance system.

The UniFi Cloud Key Gen2 Plus features an eight-core processor with 3GB of RAM a 1TB 2.5" SATA hard drive (user-upgradeable) and 32GB eMMC flash storage. There is a 10/100/1000 Mb/s Gigabit Ethernet port which supports 802.3af PoE. You can also power the device via the USB Type-C port with QuickCharge 2.0 technology.

The UniFi Cloud Key Gen2 Plus can configure and manage up to 20 UniFi cameras in UniFi Protect mode. It can also manage and configure up to 15 UniFi cameras and 50 UniFi devices in UniFi SDN + UniFi Protect mode.

The Ubiquiti hybrid cloud configuration provides a secure private SSO (Single Sign-On) to access all of your UniFi deployments from anywhere in the world. With the hybrid cloud a third-party hosted cloud service is not required so all your personal data remains local and secure.

## UniFi Protect

### Easy Setup

Using a standard web browser or Bluetooth setup from your mobile device deployment of your UniFi Protect controller can be set up and configured in a matter of minutes.

### User Interface

Accessible from a web browser the UniFi Protect was designed to be easy-to-use yet packed with advanced features. The UniFi Protect interface is intuitive and loaded with powerful features such as statistical reporting multiple live views options versatile camera settings advanced analytics and customizable event recordings.

### Plug and Play Installation

Automatic camera detection in UniFi Protect makes it easy to install and deploy cameras. All of the camera settings are integrated into the software. You can also configure reboot or upgrade the firmware on any camera from within the UniFi Protect interface.

### Additional Live Views

Playlists can be created with a configurable live camera feed rotation. Define the cameras you want included in the playlist and how long you want them to appear on the screen before moving on to the next live feed.

### Mobile App

The downloadable app provides free remote cloud access to your UniFi Protect system. It also allows you to securely access video recordings that are privately stored on the Cloud Key Gen2 Plus and not a third-party

server or internet cloud.

### Live View

View up to 20 live camera feeds in a single window. With basic and advanced template options available choose the live view template thats right for you.

### Time Lapse

The Time Lapse feature allows you to scroll through video events and recordings quickly and efficiently. Now you can sift through hundreds of hours of video in just minutes.

### Events

Video recordings are stored privately on the Cloud Key Gen2 Plus. With a built-in 1TB HDD you can retain hundreds of recording hours without third-party storage or online digital footprints.

### UniFi SDN Controller

#### Multi-Site Management

A UniFi Cloud Key Gen2 Plus installed at each deployment site provides an always-on private UniFi cloud service. Every site is accessible through its assigned secure SSO. Each Cloud Key Gen2 Plus is independent with its own network monitoring configuration maps statistics and admin accounts.

### Improved User Experience

Redesigned to be more intuitive and easier to navigate the UI raises the bar for enterprise network management efficiency. Important network details are logically organized for a simplified yet powerful interface.

### Network Overview

A comprehensive overview of your network health is readily available in the dashboard. Monitor your networks vitals and make on the fly adjustments as needed.

### Detailed Analytics

Use the configurable reporting and analytics to monitor large user groups and expedite troubleshooting.

### LAN/WLAN Groups

The UniFi SDN Controller can manage flexible configurations of large deployments. Create multiple LAN and WLAN groups and assign them to the respective UniFi devices.

#### Features

- 1TB 2.5" SATA HDD (Upgradeable)
- 802.3af PoE | QuickCharge 2.0 USB Type-C
- 1 x 10/100/1000 Mb/s Ethernet Port
- 2 x USB Type-C Ports
- 1 x MicroSD Card Slot
- Front Panel Display
- Built-In Battery
- Hybrid Cloud Technology

Hard Drive	1 TB 2.5" SATA HDD (user-upgradeable)
Enclosure	Anodized aluminum

Management Interface	UniFi Management Portal UniFi SDN UniFi Protect
Device Capacity	UniFi Protect Mode Up to 20 UniFi cameras UniFi SDN + Protect Up to 15 UniFi cameras and 50 UniFi devices
Processor	APQ8053 8-Core with 3 GB of RAM
Storage Capacity	32 GB (eMMC)
Ports	2 x USB Type-C 1 x 10/100/1000 Mb/s Gigabit Ethernet RJ-45 LAN
Media Card Slots	1 x MicroSD
Buttons	1 x Power 1 x Reset
LED Indicators	1 x Power (White/Blue)
Power	Power Method Standard 802.3af PoE Quick Charge 2.0/3.0 power adapter Supported Voltage Range 9 VDC, 2 A Power Consumption (max) 12.95W (PoE) USB Type-C Power
Operating Temperature	32 - 104°F / 0 - 35°C
Operating Humidity	20 - 80% (non-condensing)
Certifications	CE, FCC, IC
Dimensions	5.16 x 1.07 x 5.28" / 131.16 x 27.10 x 134.20 mm
Weight	1.28 lbs / 0.58 kg
