Five Button Fob Connect+ Encrypted

RE600-5

SKU: 110694 UPC: 857744008089

Forget to arm the system on your way out the door? No problem, the encrypted FOB gives you secure, on-the-go convenience for basic arming functions and can be programmed to turn on a Z-Wave light, or trigger a panic alarm. The LED indicates data transmission activity.

Five Button Fob is a portable device used to remotely control a security panel. The buttons can be configured to arm, disarm, trigger panic alarms, or control home automation functions.

Feature

- 5 buttons
- Supports button combinations
