

## Network Video Recorder Pro

UNVR-PRO

SKU: 147561    UPC: 810010075314

The UNVR Pro is a UniFi OS Console that runs the pre-installed UniFi Protect application and has a 7-drive hard disk drive (HDD) bay that offers the greatest storage capacity of any UniFi OS Console. The powerful, easy-to-use UNVR Pro can be deployed in minutes and support systems with up to 60 cameras. Combining the best features of Cloud and onsite surveillance systems, UniFi Protect gives you centralized, local, low-latency access to all of your live camera feeds and recordings, as well as remote access from anywhere in the world via [unifi.ui.com](http://unifi.ui.com) and the Protect mobile app.

The UNVR Pro also offers expanded RAID configuration options for enhanced data protection, applying either RAID 1, 5, or 10 based on the number of HDDs installed. It's also equipped with a 1.3" touchscreen display for concise, convenient video event previewing.\*

### Features
