## 2-Way Wireless Wire-Free Keypad

WT5500

SKU: 19805    UPC: 80009512

The compact and sleek new WT5500 Wire-Free Keypad is designed to work with the ALEXOR Wireless Panel. Since ALEXOR is mounted in a secure location within the home away from main access areas the WT5500 provides an easy-to-use and convenient main interface to the system. And with handy wall or free-standing desk stand mounting options ALEXOR supports 4 keypads, but IMPASSA only supports 1 additional keypad. Installers can offer homeowners more choice in where keypads may be located throughout the home. The WT5500 can be conveniently located on the wall just inside the front door or on a desk-stand in the kitchen or even near a bedside
