

Caseta Wireless 2-Wire Switch - Black

PD-5WS-DV-BL

SKU: 112279 UPC: 784276041140

This Lutron Caseta in-wall light switch Features a fast installation that usually takes about 15 minutes. It comes in a Black finish and mounts easily on the wall, perfect for retrofit applications. Once installed, it provides easy control over the lighting, fan, or other load in the room through its 2-button interface. This dimmer uses the clear connect system to wirelessly connect to other Lutron Caseta wireless products. This allows connected lighting to be controlled by the tiny Pico remote, which is sold separately. This remote can also be mounted on the wall and synchronized with this dimmer, allowing for multiple points of access in the room.
