6+ Dual-Band Mesh WiFi Router

R011111

SKU: 113386 UPC: 840080502151

The most affordable eero gigabit system ever, eero 6+ enables premium wifi performance without a premium price tag. The latest dual-band offering from eero is ideal for internet service plans up to a gigabit and offers coverage for over 75 devices simultaneously. Each device has 2 x 1.0 GbE ports for optional gigabit wired connectivity and also provides access to the 160 MHz radio channel for faster wireless connectivity than prior eero dual-band offerings. A single eero 6+ covers up to 1,500 square feet.

Features

- Supports speeds up to a gigabit
- Enough bandwidth for 75+ connected devices and covers up to 1,500 sq. ft.
- Built-in smart home hub for supported Thread and Zigbee devices
- 2.4 GHz and 5 GHz bands (with 160 MHz channel support in 5 GHz) offer enough wifi bandwidth for 75+ connected devices.
- Backward compatible - eero 6 series devices are backward compatible with previous generation eero devices, and you can easily expand your network by adding more eero devices when your wifi needs change. You can also swap your existing eero gateway with a newer eero router without tearing down your existing network.
- Seamlessly manage your smart home - Featuring a built-in Zigbee smart home hub, all eero 6 series devices can connect compatible smart home devices on your network with Alexa, so you don't need a separate Zigbee hub. eero 6 devices can also act as a Thread border router to provide interoperability with Matter-certified devices.

The secret is in the TrueMesh

With an eero mesh system, multiple eeros work together harmoniously to send connection in every direction throughout your home. In addition, our patented TrueMesh technology intelligently routes traffic to reduce drop-offs and dead spots.

eero 6+

Our most affordable gigabit wifi system.

Gigabit

Supports ISP plans up to a gigabit.

Wi-Fi 6

Wi-Fi 6 is the standard for speed and efficiency.

Dual-band

2.4 GHz and 5 GHz bands (with 160 MHz channel support) offer enough wifi bandwidth for 75+ connected devices.

eero 6+ puts gigabit speeds within reach

Fast speeds, less to spend

Access premium wifi performance and speeds up to a gigabit, without the premium price tag. eero 6+ is our most affordable gigabit system ever.

Connectivity you can count on

eero 6+ gives you all the connectivity, with all the reliability. So you can work from home with confidence—and say goodbye to dropped video calls. Or keep your entire smart home running, even when you're away.

Made for your smart home

eero 6+ works as a smart home hub so you can control supported Thread and Zigbee devices with Alexa. Use your eero 6+ with Alexa to control lights, locks, plugs, and more.
