PowerG Wireless Commercial Contact w/Auxiliary Input

PG9309

SKU: 113526 UPC: 88030763

PowerG Wireless Commercial Magnetic Contact with Auxiliary Input

Features:

- Enhanced battery life for high traffic areas - Up to 5 years with typical commercial use under standard conditions
- Superior PowerG transmission range, perfectly suited for very large properties
- Auto-enrollment process by pulling a tab
- Built-in link quality indicators eliminate the need for the installer to physically approach the control panel
- Configurable auxiliary input provides the option to connect a standard hardwired device to a PowerG wireless system
- Certified with ULC Wireless Commercial Burglary Listing under ULC-S304-16 Standard - an industry first in Canada!
