

# SONOS

Beam Soundbar (Gen 2) - White

BEAM2US1

SKU: 159933    UPC: 840136802310

Enrich all entertainment with the latest generation of our compact smart soundbar, now with Dolby Atmos.

Experience panoramic sound and crystal clear dialogue for shows, movies, and games. And when the TV is off, stream music and more from all your favorite services. Control is easy with the Sonos app, voice, and Apple AirPlay 2. Add speakers to create a wireless surround sound system for multiroom listening. Everything connects over WiFi.

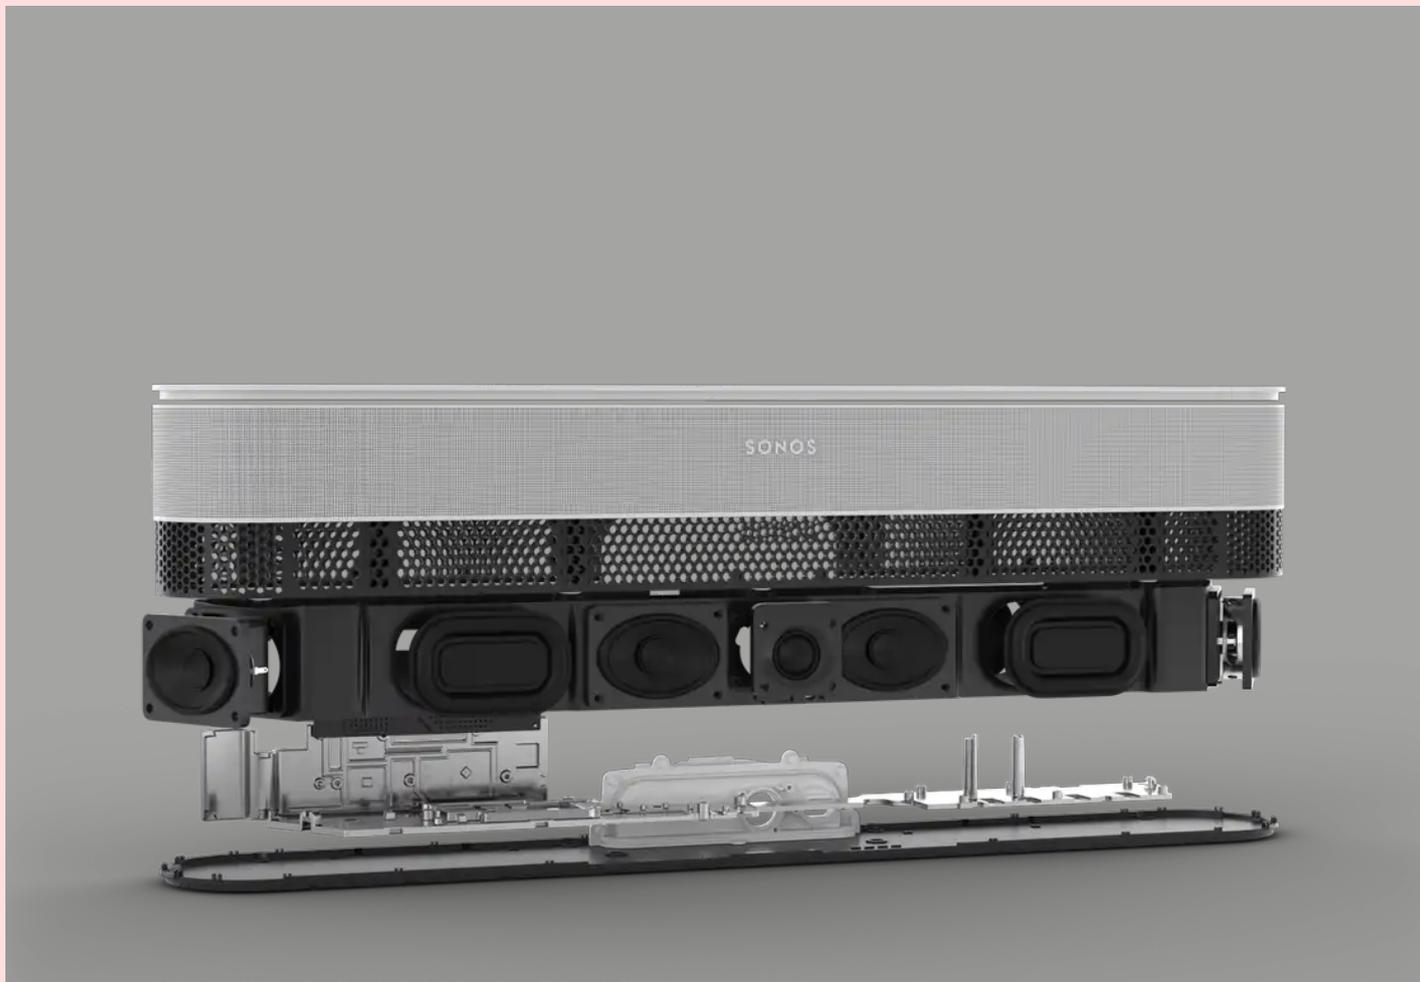

## Features

- **High Quality, even at low volumes**  
Advanced audio processing ensures balanced sound from wall to wall at any volume level. When the user wants to watch TV but need to keep it down, they can turn on Night Sound in the app to reduce the intensity of loud effects and enhance quieter ones.
- **Crystal clear dialogue**  
Oscar-winning sound engineers helped fine-tune the soundbar to make sure the listener can hear every word and can always follow the story. For even greater clarity when characters whisper or the action intensifies, turn on Speech Enhancement in the Sonos app.
- **Tuned to perfection**  
Trueplay tuning technology adapts the sound for the unique acoustics of the room so content always sounds just the way it should. Requires iOS device.
- **Breeze through setup**  
Go from unboxing to unbelievable sound in minutes with only two cables and step-by-step guidance from the Sonos app.
- **Beam, evolved**  
A faster processor enables support for Dolby Atmos and creates two new audio paths for a virtual sound experience. Updated with a precisely perforated grille, Beam looks just as good as it sounds and blends seamlessly into the home.
- **Hands-free help**  
Ask Amazon Alexa or Google Assistant to set timers, check the news, control the smart home devices and more. Easily mute with the press of a button to turn off the mic. The LED light will also turn off so you know the voice assistant isn't listening.
- **Made for music**  
Stream music, radio, audiobooks and podcasts from all the top services with detailed stereo sound that fills the room.
- **Dramatically realistic**  
Dolby Atmos maps sounds in space for a 3D effect so the listener can experience planes as if they're flying

overhead, hear footsteps moving across the room, and feel the score all around them. Requires a TV that supports Dolby Atmos and Atmos-encoded content.

### Exceptional sound all around

Dolby Atmos maps sounds in space for a 3D effect so the user can experience planes as if they're flying overhead, hear footsteps moving across the room, and feel the score surround them.

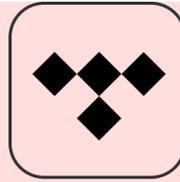

### Smarter on the inside

A 40% faster chip pushes the sonic limits for a soundbar this size, creating two new audio paths for a virtual surround sound experience.

### Tuned to perfection

Trueplay tuning technology adapts the sound for the unique acoustics of the room so content always sounds just the way it should.
