PowerG Wireless Outdoor PIR Motion Detector

PG9994

SKU: 19857 UPC: 88030298

The PG9994 is an innovative 2-way wireless outdoor PIR motion detector that comprehensively addresses property owners security needs for accurate intruder detection with minimum false alarms. The PG9994 features several innovative technologies to overcome demanding outdoor challenges such as rain, direct sunlight, animals, changes of light levels and more. The revolutionary Octa-Quad technology, which uses eight PIR sensors, each acting as a Quad detector, enables the PG9994 to accurately and reliably determine whether an alarm is justified.

Feature

- Innovative Octa-Quad technology distinguishes between a moving person, swaying trees, and small animals
- Market-leading mirror optics offer exceptionally high detection sensitivity and immunity to false alarms
- Range: 30 ft.
- Vandal-resistant design through patented V-Slot technology
- Pet-immune Target Specific Imaging distinguishes between humans and pets weighing up to 40 lbs.
- Compatible with PowerSeries Neo, PowerSeries Pro and Qolsys panels
