

Outdoor Wireless Contact Sensor

DW30-345

SKU: 58725 UPC: 817082013282

Know when outdoor gates and doors are opened or closed.

Features

- Sensor enables a wide gap (2") that caters to multiple applications from yard gates and swimming pool access to detached garages
- Sends a notification to the alarm panel when a door gate or window is opened or closed
- Designed for extreme weather conditions (IP56) (-40 to 140 F) for harsh conditions
- Can be painted to match its mounting surface
- 2GIG 345MHz compatible
