

ProControl.

Plus Control Processor with IR Emitters

11-500102-10

SKU: 66442 UPC: 850180005100

Communicating from the Pro24.r and iPro.8 remotes via RF signal, the ProLink.r processor combines precision control with ample power for exceptional control over the media room and able to expand for whole home control. Also compatible with the ProPanel App for iOS. Now including four IR emitters.

Features

- Four integrated IR routing ports
- Adjustable output strength
- Four (4) IR Emitters included
- PC programmable with the wizard based Pro Control Studio software
- Communicates with the Pro24.r and iPro.8 remotes via one-way 433 MHz RF signal
- Provides one-way LAN control via iPad ® and iPhone® with an activated ProPanel app
