

airMAX PowerBeamM 2.4 GHz, 400 mm
Bridge

PBE-M2-400-US

SKU: 16311 UPC: 810354020162

(2-UNITS) Ubiquiti Powerbeam M2 400mm PBE-M2-400 2.4GHz 18dBi 150+ Mbps airMAX CPE The PBE-M2-400 PowerBeam airMAX Bridge from Ubiquiti Networks has an innovative mechanical design. This PowerBeam supports up to 150+ Mb/s real TCP/IP throughput. It directs RF energy in a tighter beamwidth. With the focus in one direction, the PowerBeam blocks or spatially filters out noise, so noise immunity is improved. This feature is important in an area which is crowded with other RF signals of the same or similar frequency.

Features:

- (2-UNITS) Ubiquiti Powerbeam M2 400mm PBE-M2-400 2.4GHz 18dBi 150+ Mbps airMAX CPE for customer locations
- Incorporating a dish reflector design with advanced technology, PBE-M2-400 PowerBeam PBE-M2-400-US is the latest generation of Ubiquiti Networks airMAX CPE for customer locations.
- Ubiquiti InnerFeed technology integrates the radio into the feedhorn of an antenna, so there is no need for cables to connect the radio to the antenna. This improves performance because it eliminates cable losses.
- The form factor of the PowerBeam Powerbeam M2 400mm features the highest gain for its size. The PowerBeam 2.4GHz 18dBi excellent beam directivity provides the best performance in high-noise environments.
- 1 x 10/100 Ethernet Port
