

High Power AC1900 Dual-Band Wireless Access Point

XAP-1510

SKU: 17657 UPC: 729440674922

With leading-edge 802.11ac 3x3 Dual-Band technology, the XAP-1510 delivers data rates up to 1900Mbps. The XAP-1510 isn't just about faster speeds, though. Beamforming, which directs signals from the AP toward each client, focuses the data transmission so that more data reaches each targeted device instead of radiating in all directions equally.

The XAP-1510 with 802.11 AC, Beamforming, and outstanding wireless coverage delivers a world-class Wi-Fi experience.

With the XAP-1510, installation is a snap! The sleek design allows for unobtrusive mounting on a ceiling, wall or other flat surface. A mounting bracket is included that mounts easily to most regions' standard electrical boxes.

The XAP-1510 also requires only a single Ethernet cable that delivers both power and data through the integrated PoE+ port. Use one of Luxul's PoE Switches, or the included PoE injector.

Features

- High Performance 802.11ac WiFi (data transfers up to 1900Mbps)
- Concurrent Dual-Band Wireless AC
- 2.4 and 5GHz Beamforming
- High Output Power for Maximum Coverage
- Compatible with XWC-1000 Wireless Controller
- Great for Streaming Media and Other Demanding Applications
- VLAN Support for Creating a Secure Guest Network
- Simple and Discreet Installation
- Up to 4 SSIDs per Band for a total of 8 SSIDs
- Single Cable Installation with PoE (Injector included)
- Installs on Ceiling or Wall; Or Use as a Desktop AP
- Three Year Limited Warranty

- Antenna Type: 3 x 3
- Connection Type: Wireless
- Power Cord: US Cord
- Power Type: AC, PoE
- SSID Capability: 8
- Transmit Power:
 - 1000mW
 - 30dB
- VLAN Compliance: 802.1Q
- Wireless Data Rate:
 - Up to 3100Mbps @ 5GHz
 - Up to 600Mbps @ 2.4GHz
- Wireless Frequencies:
 - 2.4 GHz
 - 5GHz

- Wireless Mode: 802.11 a/b/g/n/ac
