PowerG Wireless Outdoor PIR Motion Detector w/Integrated Camera

PG9944

SKU: 19918 UPC: 88030435

PowerG 915Mhz Outdoor Wireless PIR Motion Detector with Built-in Camera and Pet Immunity up to 85lbs. Includes two 3V CR17450 Lithium batteries.

Feature

- Enables real-time visual alarm verification, day and night
- Full color, high-resolution images transmitted from the premises via Cellular or Ethernet
- 8 independent quad PIR detectors (Octa-QUAD) operating in true Quad configuration with true motion recognition processing for each of detectors
- Camera range in parallel to PIR coverage - no "lost areas"
- CMOS camera with IR illumination - operates also in total darkness
- Instant capture ensures image recordings start immediately
- Camera range: 39 ft. (as detector); with IR illumination 32 ft.
- Vandal-resistant design through patented V-Slot technology
- Smart anti-masking distinguishes between masking spray and rain
- Pet-immune Target Specific Imaging distinguishes between humans and pets weighing up to 40 lbs.
- Low battery indication
- Compatible with PowerSeries Neo, PowerSeries Pro and Qolsys panels
