

5GHz PtMP LTU Client

LTU-LITE-US

SKU: 30188 UPC: 817882029858

Incorporating Ubiquiti's proprietary LTU technology, the LTU-Lite is a 5 GHz radio with an integrated antenna design for use as a PtMP CPE. LTU technology breaks through the limitations of 802.11 Wi-Fi technology and supports 1024 QAM for superior performance. Channel width flexibility (10/20/30/40/50 MHz) allows independent TX and RX channel frequency configurations anywhere within the radio band to avoid local interference.

Features

- PtMP CPE
- 1024 QAM
- 10/20/30/40/50 MHz channel bandwidth
- Central configuration management from AP side
- Frequency split
- Auto power adjustments
- Router mode support
