Cam Wired Pro - Black

B08FCWQWDZ

SKU: 156587 UPC: 840080570099

Ring B08FCWQWDZ Floodlight Camera Wired Pro, Wireless 1080p Surveillance Camera in black allows you to protect your property and stay connected 24/7 with the Floodlight Cam Wired Pro advanced outdoor camera. Stop crime in its tracks with ultrabright LED floodlights. Stay secure in any weather condition, receive more precise motion alerts with improved 3D motion detection, and monitor movement from above with Bird's Eye View. Use the Ring app to see what's happening at home, turn on the lights, speak to visitors with improved noise reduction and crisp Audio+, and sound the siren when you need to.

Features:

- Easy video communication: Connects to your existing Wi-Fi network.
- Works with Amazon Alexa: You can hear audio announcements whenever motion is detected and enjoy hands-free home security.
- All-new 3D motion detection: Pinpoint movement and customize motion zones up to 30' away to know exactly when and where someone's stepped onto your property.
- Bird's Eye View: Shows the path of visitors on an aerial map view for motion events recorded by your camera.
- Night vision: Eliminate blind spots or dark areas with built-in color night vision.
- Hardwired installation: Ensures reliable and secure connection.
- Two-way audio with Audio+: Communicate with people, and talk to pets from anywhere with the built-in microphone and speaker.
- Free Ring app*: Get precise motion-activated alerts, and hear and speak to people on camera with improved noise reduction.
- Easy installation: The camera can be mounted on a wall or ceiling.
- Full HD resolution: Its vivid 1080 HDR resolution allows you to see small details on your screen.
- Live view: Stream live video from your home to your mobile device.
- Two LED lights: Illuminate every angle with up to 1800-lumen bright and 3000K warm light.
- Siren alarm: Ensures peace of mind by preventing and deterring unwanted intrusions.
- Ring Protect Plan**: Users can save and share videos and photos.
- Weather-resistant design: The durable construction protects against wind and rain for versatile indoor/outdoor monitoring.

* Available for Apple and Android devices.

** Fees may apply for additional services.
