

1 Space Quiet Blower Panel, Anodized

QBP-2A

SKU: 11108 UPC: 65674718223

The QBP-2A from Middle Atlantic is a 1 RU blower panel with a pair of custom-designed blowers that provide cooling to equipment stored in credenzas and small rack systems. It features a UL-listed power supply, 9' power cord, and a black brushed and anodized finish.

The fans switch on or off and speed up depending on the temperature inside the rack, thereby ensuring low power consumption. In addition, the blower provides high static pressure to ensure steady airflow, even in cramped racks. The blower panel offers a displacement of 100 CFM with minimal noise (32 dB), allowing for quiet operation, even at high speeds.

Features

- For Small Rack Systems and Credenzas
- Quiet Operation (32 dB)
- 100 CFM Airflow Rating
- Occupies One Rackspace
- Custom-Designed Blowers for Airflow
- Black Brushed and Anodized Finish
- UL-Listed Power Supply

CFM	100
Rack Size	1 RU
Volts	12
Current Draw	840 mA @ 12 VDC
Sound Level	32 dBA @ 1 m
Finish	Black brushed & anodized
