

Caseta Wireless ELV Dimmer - White

PD-5NE-WH

SKU: 8544 UPC: 784276217699

Bring Technology and style to your home with the Lutron Caseta ELV+ dimmer. Caseta Wireless from Lutron allows you to control your lights from anywhere within your home with the Pico remote control (sold separately) or from anywhere with your mobile device via the FREE app and Caseta Smart Bridge (also sold separately).

The Caseta ELV+ Dimmer allows you to recall your favorite light level with the new preset button for added convenience and is designed to control many loads types: 500-Watt of incandescent, halogen or electronic Low-Voltage, 400-Watt of magnetic Low-Voltage and 250-Watt of dimmable LED or dimmable CFL (neutral wire connection and 10-Watt minimum load required for all load types). Out of the box the dimmer is set to control ELV, incandescent, halogen and many compatible LEDs, however is phase selective the dimmer output can be changed for MLV and certain LED bulbs with simple button press programming.

The Caseta ELV+ dimmer is a great solution for LED fixtures with integrated, built-in drivers, ELV track lights and problem LEDs that may prefer an ELV dimmer. To use in a multi-location application, replace the existing switch with a Pico remote control and wallplate adapter (both sold separately). Please note, wallplate for dimmer is also sold separately.

This product features:

- Set lights to automatically adjust with changing seasons so your family always comes back to a well-lit home; you can also enable the smart away feature to randomly turn your lights on and off to look like you're home even if you're away (smart bridge, L-BDG2-WH, required).
- Caseta connects with more leading smart home devices including Amazon Alexa, Apple HomeKit, the Google Assistant, Serena shades and Sonos than any other smart lighting control brand (smart bridge required).
- Caseta puts the smarts in the switch so you can control your lights a variety of ways via the free Lutron app, your voice or from the wall; you can create personalized schedules to turn on, off or dim lights at set times to best fit your everyday routines or activate favorite lighting scenes with the touch of a button (smart bridge required).
- One Caseta smart switch can control many bulbs at once; make many bulbs smart, even your existing bulbs. Get smart control of multiple styles of dimmable LED, incandescent, and halogen bulbs.
- For added convenience, use with wireless Pico remote (PJ2-3BRL-Gxx-L01) to turn your lights on, off, or dim and brighten with the touch of a button from anywhere in the home.
- Create a 3Way by mounting a Pico and wallmount bracket to almost any wall surface without cutting holes or cutting wire; you can also replace existing 3way switches by mounting the bracket and Pico over the backbox (PJ2-WALL-WH-L01 sold separately).
- Easily replaces your existing switch in as little as 15 minutes; NEUTRAL WIRE REQUIRED.
- Technical Details: Works with up to 250W of dimmable LED/CFL, 500W of incandescent/halogen or ELV, or 400W MLV; 10W minimum load required.
- Includes: (1) Caseta dimmer switch; coordinating wallplate sold separately.
- Manufacturer SKU: PD-5NE-WH
