Adjustable Wall Mount for Sonos Era 100 Each - Black

WSWM22-B1

SKU: 20298 UPC: 793795532534

Enjoy optimal audio quality from anywhere in the room with the Sanus WSWM adjustable wall mount, designed especially for the Sonos ONE, Sonos One SL, PLAY:1 and PLAY:3 as well as other wireless speakers weighing up to 10 lbs. Installing to drywall, wood studs or concrete in only 15 minutes and boasting effortless tilt and swivel capability, the placement flexibility of the WSWM makes it versatile enough for any system setup and for voice integration technology like that of the new Sonos ONE. Wary of mounting your new Sonos ONE to the wall? Rest assured that your speaker will stay safe and in-place thanks to exclusive InvisiGrip technology: Two ultra-thin yet ultra-strong, virtually invisible wires wrapping around the top and bottom of your speaker to keep it snugly in place
