

2 Space Vented Rack Blank

2UBLANK-V

SKU: 160767 UPC: 819932011493

Introducing the RACK 2UBLANK-V 2 Space Vented Rack Blank, the perfect solution for optimizing airflow and maintaining a clean and professional appearance in your rack setup. Designed with functionality and efficiency in mind, this rack blank enhances ventilation while providing a sleek and polished look to your rack system.

The 2UBLANK-V is a vented rack blank that fits seamlessly into a 2U space, allowing for improved airflow and heat dissipation within your rack. The precisely placed perforations on the blank facilitate efficient ventilation, preventing the build-up of heat and ensuring optimal performance of your equipment. This vented design promotes a cool and well-ventilated environment, reducing the risk of overheating and prolonging the lifespan of your valuable gear.
