PR-V7PI 7 Outlet Vertical Smart Rack Mount Power Distribution Unit

PR-V7PI

SKU: 131920   UPC: 08642941628

Metra PR-V7PI Big Dog 7 Outlet Vertical Smart Power Distribution Unit. Metra combined all of the features integrators need into one unique power distribution unit to deliver surge protection, remote control, smart home integration and more. The 6 individually controllable outlets have power metering, self-healing and automatic reboot capabilities for smarter remote management of your connected devices. An additional loop-out outlet allows daisy chaining multiple units for unlimited configuration and easy addition for new devices.

Features

- 6 individually controlled outlets
- 1 always on loopout outlet
- Flexible Mounting options (Vertical, Horizontal, Surface, etc.)
- Self-Healing functions for network connected equipment
- Chain together additional units to expand required outlets
- Surge Mileage: Track when a Surge Event happens and the remaining health of the surge protection
- Replaceable Surge module
- 2040 Joule surge protection
- Web and Mobile app for remote management and notification
- RS-232/Serial and IP automation integration
- Grounding Lug
- 120V/12A Rating

Manage EverythingFrom One App

The intuitive MAVbase™ app design provides a simple user experience to manage connected devices. Integrators can monitor all of their clients with either remote or direct access.
