

106188J Cat6 Non-Pass Through RJ45

106188J

SKU: 42318 UPC: 849160000000

The Platinum 106188J are traditional style modular plugs for terminating RJ45 Cat 6 cables in both telephone and data applications. These 2-piece high performance connectors feature a 3-prong solid conductor contact and are sold in a jar of 100. Platinum Tools founded in 1997 was created based upon two very simple objectives. First develop manufacture and source the absolute best possible solutions for preparation installation and hand termination of wire and cable. Second implement an operational infrastructure that can deliver these products in an efficient timely and high quality manner. "This item is not sold directly by Platinum Tools."
