Indoor Motion Sensor Pet Immune, Connect+ Encrypted

RE610P

SKU: 110699 UPC: 857744000000

Protect residential installs, without the fear of false alarms caused by man's best friend. This sleek, yet modest PIR is designed to monitor for human-sized movement, while intelligently tolerating pets.

The Indoor Motion Sensor alarms when motion is sensed or when the external contact is opened. It is battery powered and requires no installation tools. A Pyroflex sensor with HighBar signal processing allows for industry-leading pet immunity and catch performance.

Feature

- Industry-leading pet immunity and catch performance
- Supports both motion zone and an external contact zone
- Narrow angle detection
- Detection range adjustability
- IP 55 rated weatherproof enclosure
- Mountable on walls or in corners
- 5-year warranty
- 2.5 x 4.5 x 2 inches.
