

HIKVISION®

Power Distribution Unit

DS-KAD606-P

SKU: 17439 UPC: 842571105094

Featuring an impressive 6 ports, a convenient 24VDC power adapter, and many other positive features, the DS-KAD606-P wall mounted power adapter from Hikvision is an outstanding option. Specifically designed for Hikvision IP based intercoms, this particular model will be a favourite thanks to its ability to combine audio and video. The six ports allow the support of PON cables and if you're worried about adaptability - don't be! This model comes with a 24 volt (DC) power adapter.

In addition to these fine features, you get peace of mind that comes from knowing that we are a HikVision diamond partner. That means whenever you need support, work covered by the warranty, or any other assistance we are here to back up your needs.

Features:

- Built-in 24 VDC voltage-stabilized switching mode power supply
- 8 x RJ-45 interfaces, including 6x adaptive 10/100Mbps LAN interfaces supporting network cable powering and 2x adaptive 10/100Mbps cascading LAN interfaces
- IEEE802.3, IEEE802.3u, IEEE802.3x
- Storing and forwarding function.
- VLAN technique.
- Suitable for wall mounting.
