

## Caseta Wireless Motion Sensor (Vacancy)

PD-VSENS-WH

SKU: 31966    UPC: 78427627685

Add enhanced automation to your Caseta dimmers, switches, and fan controls with your Caseta Motion Sensor. Program your Caseta Motion Sensor to automatically turn off any number of Caseta devices after you leave a room. 1 motion sensor can turn off many Caseta devices within up to 60 ft. and can detect motion 3 times better than other comparative sensors. The motion sensor features a full 180° field of view, in addition to having a typical 10-year battery life, 3 times longer than the industry average. Use the motion sensor for vacancy applications wherever it's needed - no wires required. Place it freestanding on a flat surface or mount to a wall or corner, this makes the motion sensor perfect for bathrooms, laundry rooms, hallways, garages, and more. Place in a high traffic area of your home for hands-free vacancy control of your lights, alternatively, place in a low traffic area of your home so you never have to remember if you turned the lights off.

### Features

- Sensor can turn off any number of Caseta smart device
- Controls Caseta smart switches, dimmers, fan controls, and shades
- 180° field of view; detects motion 3x better than other sensors
