

## Decora Smart Switch Companion with Locator LED for Multi-Location

DD0SR-DLZ

SKU: 22900    UPC: 78477728512

Decora Digital Dual Voltage Matching Switch Remote for Decora Digital Switches. For 3-way or up to 5 additional location applications. 120/277 VAC. With LED Locator. White face assembled on device, Ivory and Light Almond faces included.

The next generation of lighting control technology is here with the new Decora digital dimmer and digital switch with Bluetooth technology. These innovative devices work using the Decora digital dimmer & TIMER app that can be easily downloaded to smartphones or tablets and paired to the Leviton dimmer or switch using Bluetooth technology. Decora digital controls with Bluetooth technology provide local control within a 30 foot range without the need of a hub, gateway or internet connection, bridging the gap between traditional dimmers and whole-house automation systems. Decora digital dimmer - a powerful device combining the best of Leviton dimmer and TIMER functions with today's technology. Just use your smartphone or tablet to control, adjust and time lighting for daily activities or to ensure a "lived-in" look while away. Decora digital switch - users enjoy the combined functions of a standard wall switch and a countdown or Programmable TIMER switch in one attractive device. Using the app to set TIMER functions makes it quick and easy to control lights. Decora digital dimmer & TIMER app - compatible with Apple and Android smartphones or tablets; offers simple, intuitive on-screen menu options to independently control dimmers and switches within a 30 foot range. Decora digital devices are ideal for living rooms, bedrooms, kitchens, dining rooms, home offices, outdoors or anywhere full control of lighting is desired.

### Features

- The Decora Switch Companion **must** be used with a primary Decora Smart (Wi-Fi, Z-Wave, HomeKit or Zigbee) or Decora Digital switch, dimmer or fan speed control
- Dual voltage for 120VAC and 277VAC applications
- For use in 3-way or up to 4 additional locations
- Locator LED illuminates when load is off making it easy to locate in the dark
- Intuitive operation and digital circuitry provide convenient and easy on/off operation
- Neutral wire required for installation. Neutral wires are typically two or more white wires in an electrical box. If you are unsure, consult an electrician
- White face assembled on device, Ivory and Light Almond faces included
