Alarm Pro Base Station w/ Built-in eero
WiFi 6 Router

B08HSRZ58F

SKU: 110835 UPC: 840080521237

Ring Alarm Pro Base Station lets you upgrade your existing Ring Alarm system or create a new Alarm Pro system with a built-in eero Wi-Fi 6 router that helps keep your network secure, too. Add Ring Alarm security devices and Ring Security Cameras to Alarm Pro Base Station to help protect your entire home. Stay online with supported wifi speeds up to 900 Mbps, and coverage of up to 1500 sq. ft. Plus, keep your connected devices online if the primary internet goes out with 24/7 Backup Internet, an exclusive Ring Protect Pro subscription feature. Control your home security system from the Ring App and manage your wifi and network security settings in the eero App.

Ring Alarm Pro is designed to be used as your primary router and must be directly connected to your modem, replacing your existing network.

Features

- Alarm Pro Base Station secures your home like never before with a built-in eero Wi-Fi 6 router for improved performance and connectivity for your compatible security devices.
- Can replace existing Alarm Base Station to add eero Wi-Fi 6 connectivity.
- Blanket your home in fast, reliable wifi with built-in eero Wi-Fi 6 router that covers 1,500 sq. ft.
- Connects to all Ring Alarm components.
- Easy DIY installation. Just plug in Alarm Pro, then connect and pair your compatible Ring security devices in the Ring App. Set up eero wifi network in the eero app.
- Table top or wall mounted
- Optional 24/7 professional monitoring for Ring Alarm with a Ring Protect Pro subscription, sold separately.
