

Tabletop Smart Gateway

ADC-SG130

SKU: 129110

With a reliable wireless connection and excellent range, the ADC-SG130 makes it easy to install any Alarm.com Wi-Fi camera. The ADC-SG130 features WPS, eliminating the need to update cameras with complicated router passwords. Simply plug the ADC-SG130 into any wall outlet, connect to the existing router, pair with a Wi-Fi camera, and enjoy instant, secure connectivity

Features

- Wi-Fi Access Point (2.4 GHz)
- Reliable network for Alarm.com Wi-Fi cameras, ensuring cameras stay connected when the home's network SSID, password, or ISP changes
- Remote management and troubleshooting
- Enhanced customer experience
