Tilting Wall Mount for 37" to 90" Panels

LT25-B1

SKU: 20193 UPC: 793795363398

The SANUS LT25 is a tilting wall mount for 37" – 90" flat-panel TVs. SANUS' Virtual Axis™ tilting technology provides effortless adjustment of viewing angle without the use of tools. ProSet™ post-installation height and leveling adjustments ensure TVs are always perfectly positioned after hanging. The innovative ClickStand™ feature holds the TV away from wall for easy cable installation and maintenance, then snaps shut to secure the TV to the wall plate. The LT25 features an open wall plate design that provides ample room for cable routing, and ClickFit™ technology allows a surge protector to attach easily to the center of the mount, so it stays hidden yet easily accessible. The TV can also be shifted left and right on the wall plate for perfect placement, even with off-center studs. Extruded aluminum wall plate construction is strong and lightweight, making installation a breeze. Universal mounting pattern fits virtually any 37" – 90" flat-panel TV up to 175 lbs / 79.55 kg. Compatible with the VMA201 soundbar speaker mount. Mount now fits TVs 37" – 90", and all current LT25 models have been tested for compatibility with the updated size range.
