

## RadioRA 3 Sunnata RF Hybrid 4 Button Keypad - White

RRST-HN4B-WH

SKU: 141684    UPC: 78427630461

Hybrid keypads function as a dimmer and keypad combined into a single device. Hybrid keypads are great for retro-fit applications since they eliminate the need to install two separate devices. Hybrid keypads feature large, easy-to-use buttons. LED bars on each button aid in locating the buttons in low light conditions. Printing colors are pre-selected to provide increased readability, regardless of the keypad finish or color. Hybrid keypads include a Front Accessible Service Switch (FASS) for safe lamp replacement.

### Features

- Hybrid keypads with dimmer and keypad functionality all in one device
- One keypad can control groups of devices such as dimmers, light switches, ceiling fans, automated shades and other integrated devices like audio systems
- Buttons can be configured either for integrated scene control or as simple on/off toggle switch control for a light or group of lights
- RF connectivity enables schedule, scene and other system-controlled events
- Programmable to select scene or room preset levels or positions
- Soft glow helps homeowner find the button in the dark
- Light bar brightness can be customized, including off if preferred in places like the bedroom
- Lights gradually fade on and off with customizable fade rate
