

Bluebolt Enabled Compact Power Manager

C3-IP

SKU: 131914 UPC: 05061601035

Panamax® C3-IP, a BlueBOLT enabled compact power conditioner and power sequencer with individual control for three separate outlets. Remote power management via BlueBOLT's cloud-enabled platform allows installers to monitor, control and program from anywhere. With a slim design, C3-IP fits the needs of virtually any discrete installation such as behind a flat screen, in a structured wiring enclosure or mounted to the back of a rack. Automatic over/under voltage protection through Panamax technology ensures fewer service calls and maximum longevity of connected equipment.

Features

- Compact Bluebolt™ Enabled Power Manager
- 3 Individually Controlled Outlets
- Protect-or-disconnect Surge Protection
- Standard EMI/RFI Filtration
- Over/Under Voltage Load Disconnect
- Power Sequencing
- 12A Capacity with circuit breaker
- Integrated Brackets for Wall Mounting

AC Power	120Vac 50/60Hz
Total Outlets	3
Operating Control	Type 1
Total Current Capacity	12A Maximum
Rated Impulse Voltage	1500V
Voltage Protection Rating	L-N 500V
Initial Clamping Level	200V Peak, 141 Vrms
Energy Dissipation	1680 Joules
Peak Impulse Current	12,000
Protect-or-Disconnect	Yes
Over-Voltage Load Disconnect	140 Vac
Under-Voltage Load Disconnect	90 Vac
Filtration Rating	10dB @ 10kHz, 17dB @ 30kHz, 33dB @ 100kHz, 55dB @ 1MHz
Thermal Fusing	Yes
Cord Length	0.5M IEC cord
Dimensions	7.35? x 5.5? x 1.58?
