

9-Outlet 15A Rackmount Power with Basic Surge Protection

PD-915R

SKU: 582 UPC: 65674701258

The Middle Atlantic PD-915R is a 19" Rackmount Power Strip that features 9 Outlets, 15Amp power capacity, and basic surge protection. This unit offers differential and common mode surge and spike protection as well as EMI filtering. It also contains enhanced surge protection with no surge diversion to ground, and operates on 120 volt AC/60Hz current. It includes 9' SignalSAFE 4/3 power cord with NEMA 5-15P plug, 8 circuit breaker protected rear outlets, 1 front outlet, and 15 amp circuit breaker located on the power strip's front. It has been designed to perfectly fit into 1 rackspace and is constructed of 18-gauge phosphate pre-treated steel with a black powder coat finish.
