

Wilson 75 Ohm (700-2700 MHz) Wall Mount Panel Antenna

311135

SKU: 30660 UPC: 81181502355

The Wilson 75 Ohm Wall Mount Panel Antenna (311155) is an excellent solution for improving indoor cellular signal reception across a wide frequency range. Designed for wall mounting, this antenna ensures enhanced connectivity and consistent performance in various indoor environments.

Features

- Frequency Range: 700-2700 MHz, providing robust coverage across multiple cellular bands.
- Impedance: 75 Ohm, compatible with a wide range of signal booster systems.
- Design: Directional wall mount panel antenna, focusing the signal in a specific direction for improved strength and reliability.
- Dimensions: Compact 8 x 7 x 2 inches, making it easy to install in various indoor locations.
- Connector: Equipped with a 9-inch RG6 pigtail with an F-Female connector, ensuring secure and efficient connections.
- Color: White panel design, blending seamlessly into indoor settings without being obtrusive.
- Mounting Hardware: Includes all necessary mounting hardware for straightforward wall installation.
