

4G Dome Ceiling Antenna

304419

SKU: 30658 UPC: 81181502663

The Wilson Electronics Indoor Ceiling Mounted Dome Antenna (304419) is an omni-directional wideband antenna that can provide up to 5.1 dBi of gain for 698-960MHz and 1710-2700 MHz. The antenna has 12 inch RG6 cable attached with an F-Female connector.

Omni-directional antennas receive signal from all directions, and so the antenna needs to be installed in a vertical position in the area of strongest signal.

It is a 75 ohm antenna that will rebroadcast boosted signal for every major cell carrier in the US and Canada. The antenna measures 7.3 x 3.3 inches and is made of white ABS plastic and is suitable for indoor use only.

Features

- Provides optimized pattern coverage with 698 MHz to 960 MHz operating frequency range
- Provides connectivity to your cellular network, making it perfect for usage
- Operates at 4 dB gain
- Eases up the installation procedure thanks to its 360-degree horizontal pattern
- Mounts easily on a ceiling surface and blends in with most interior
